

We deliver highly successful, rich and structured Careers, Enterprise and STEM focussed programmes to schools nationwide.

Please find below details of ALL of our workshops including criteria matched against *Gatsby Benchmarks 1-8* which we hope is of benefit to you.

Careers Discovery is our entry level for years 6-9 and a fun kick-start to Careers understanding. Students will develop skills that enable them to look to the future with optimism, ambition and excitement. They are left with materials that provide valuable building blocks (for use by the school and parents/guardians), and vitally the ability to articulate their ambitions with a true understanding of how to achieve them.

Themes : CEIAG, Learner Profiling, Other
Learner Outcomes : Motivated, Aware, Acquiring, Attainment, Other
Target Group : KS3

Careers HeadHunters suitable for Years 10-11 is a vibrant 'real life' experience drawn directly from the business sector. The workshop puts students' current challenges into real-world perspective and enables them to approach ambitions with confidence. Students will learn about themselves, develop their attitudes, behaviour and apply essential skills for their future. It is also a valuable opportunity to focus on the crucial next steps in students' educational journey.

Learner Outcomes : Motivated, Aware, Acquiring, Attainment, Other
Target Groups : KS4, KS5

Careers #gotthejob aimed at Years 11-13 our tutors run a motivating 'Assessment Centre', an increasingly popular recruitment method used by large employers. With modules that will develop essential skills for their future, this is a perfect practical experience for students preparing to leave school and an ideal opportunity to learn how they can truly stand out from the crowd.

Metropolis - is a practical **STEM** programme that develops aspirations, knowledge application and creative intellect in a real enterprise format. **Aimed at Year 8-10** this is a must for improving STEM uptake, engaging all students and pushing the boundaries of what students learn in support of, but outside the curriculum.

Themes : CEIAG, Learner Profiling, Other
Learner Outcomes : Motivated, Aware, Acquiring, Attainment, Other
Target Groups : KS3, KS4, KS5

Our **Brexit** programme has been developed in response to the momentous UK referendum result in June 2016. British politics is set to be dominated by the issues surrounding the decision to leave the EU and it is vital that students and young people are aware of what is happening, and how it will potentially effect their education journey and young adult lives. Our Brexit day is a fantastic vehicle for raising political awareness amongst young people and equipping them with the facts they need to know in this turbulent time for the country. Brexit hits key areas of the DofE directive on “Promoting British Values” as well as elements of the Citizenship Curriculum.
